

Reflection Report

Seminar Title: "WordPress Essentials: Power Your Website in Minutes"

I. Details of the Event/Activity

On May 7, 2025, I organized and conducted a seminar entitled "WordPress Essentials: Power Your Website in Minutes". The resource speaker for the seminar was Mr. Jomar Miranda, owner/founder of M.IT Solutions. The seminar's primary objective was to present the principles of creating and maintaining websites, utilizing the robust and user-friendly content management system WordPress.

As the event organizer, I oversaw every aspect of the event, from setting up the venue to coordinating with the speaker, managing advertisements, and handling technological configurations.

II. Reflections on the Seminar/Activity (Learnings)

This seminar demonstrated that WordPress is accessible both with and without programming knowledge. I learned the step-by-step process of installing WordPress and how to create projects using WordPress itself, XAMPP/WAMPP, and phpMyAdmin or Hostinger.

WordPress can serve as an excellent tool for freelancing opportunities. You can build websites for various businesses, such as hotel management systems, or create personal portfolios. WordPress proves to be a valuable tool, particularly because of its extensive plugin ecosystem, making website creation accessible even without deep technical knowledge.

As an organizer, I learned that thorough event planning is crucial for conducting successful events. The cooperation and coordination of the team are equally important factors that contribute to the event's success.

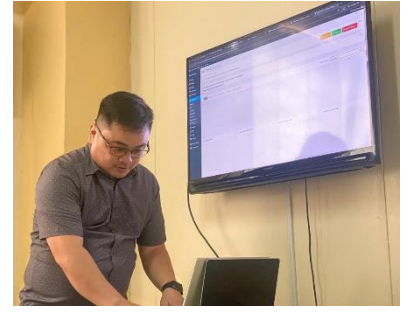

III. Reflections on Practical Applications of Learnings

The skills and knowledge I gained from organizing and participating in this seminar can be applied in various real-world scenarios. For instance, I can now build websites for school projects, online businesses, or personal branding initiatives. Understanding how to use WordPress provides an advantage in freelancing opportunities and can serve as a stepping stone toward careers in web development and digital marketing.

IV. Suggestions for Improvements for Future Activities

None.
